

Awareness AG New Yorck : Part-time Party Caretakers

People who do not have time or energy to join the Awareness AG full-time, also have possibilities to take part in the work of the AG and to shape party culture in New Yorck.

Being a Part-time Party Caretaker means to get to know New Yorck's Awareness Concept and to implement it at at least one party in the space. The concept changes continuously due to experiences gained at parties and our learning process. Party Caretakers are part of the Awareness-AG and therefore also determine how the concept can work better. We are not experts and are not expecting trained awareness profis! We want to spread the responsibility for safer parties in New Yorck more widely, to build up a community which feels responsible for New Yorck, and to make it possible for people to take part even if they do not have the capacity to join the group on a more committed basis.

Requirements

- Taking part in an introductory workshop with the Awareness-AG
- Doing a refresher-workshop as needed (e.g. if it has been a long time since the intro-workshop or if there are big changes to the concept)
- Attendance at at least 3 other appointments:
 1. a preparation meeting with the party group (one Thursday before the party / ca. 7pm)
 2. a shift (with one other person) at the party (ca. 4 hours e.g from 9pm - 1am or 1am - 5am)
 3. an evaluation with the party group (one Thursday after the party / ca. 7pm)

OR

Awareness AG New Yorck : Join regularly

We meet every second Thursday at 7pm in New Yorck. Our meeting usually last around 3 hours. We discuss upcoming parties or new requests from party groups. Sometimes these groups join our meetings to prepare or evaluate a party. We sometimes meet with other people who are developing

awareness concepts elsewhere in order to exchange experiences and build up networks. As well as that we started to work on a blog where resources on the topic of Awareness can be collected and made public. We also want to increase our knowledge on a variety of topics which are relevant to achieving safer spaces. At the moment our group is made up of 5 people. In order to put our ideas into practice we need support to Caretake during parties and we would also be very happy to see people joining our group in a more committed capacity.
